Indentation and bending behavior of electroless Ni-P-Ti composite coatings on pipeline steel

Chuhong Wang, Zoheir Farhat, George Jarjoura, Mohammad K. Hassan, Aboubakr M. Abdullah

PII: S0257-8972(17)31106-4
DOI: doi:[10.1016/j.surfcoat.2017.10.074](https://doi.org/10.1016/j.surfcoat.2017.10.074)
Reference: SCT 22839

To appear in: *Surface & Coatings Technology*

Received date: 2 August 2017
Revised date: 20 October 2017
Accepted date: 24 October 2017

Please cite this article as: Chuhong Wang, Zoheir Farhat, George Jarjoura, Mohammad K. Hassan, Aboubakr M. Abdullah, Indentation and bending behavior of electroless Ni-P-Ti composite coatings on pipeline steel. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Sct(2017), doi:[10.1016/j.surfcoat.2017.10.074](https://doi.org/10.1016/j.surfcoat.2017.10.074)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Indentation and Bending Behavior of Electroless Ni-P-Ti Composite Coatings on Pipeline Steel
