Synthesis and characterization of hexafluorozirconic acid powder and its application in nanoceramic coating

E. Ramanathan, S. Balasubramanian

PII: S0257-8972(16)30589-8
DOI: doi: [10.1016/j.surfcoat.2016.07.009](https://doi.org/10.1016/j.surfcoat.2016.07.009)
Reference: SCT 21339

To appear in: *Surface & Coatings Technology*

Received date: 7 February 2016
Revised date: 2 July 2016
Accepted date: 4 July 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Synthesis and characterization of hexafluorozirconic acid
powder and its application in nanoceramic coating**

Ramanathan.E and Balasubramanian. S*
