Effects of cyclic deformation on a barrier thin film for flexible organic optoelectronic devices

Dinh-Phuc Tran, Chih-Kuang Lin, Bao-Dong To

PII: S0040-6090(18)30084-1
DOI: <https://doi.org/10.1016/j.tsf.2018.02.005>
Reference: TSF 36467
To appear in: *Thin Solid Films*
Received date: 30 September 2017
Revised date: 12 December 2017
Accepted date: 5 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
