Doping of metastable Cu₃N at different Ni concentrations:
Growth, crystallographic sites and resistivity

Erik Lindahl, Mikael Ottosson, Jan-Otto Carlsson

PII: S0040-6090(17)30906-9
DOI: <https://doi.org/10.1016/j.tsf.2017.12.010>
Reference: TSF 36384
To appear in: *Thin Solid Films*
Received date: 7 June 2017
Revised date: 1 December 2017
Accepted date: 12 December 2017

The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Tsf(2017), <https://doi.org/10.1016/j.tsf.2017.12.010>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Doping of Metastable Cu₃N at Different Ni Concentrations: Growth, Crystallographic Sites and Resistivity

Erik Lindahl*, Mikael Ottosson, and Jan-Otto Carlsson
