TiO₂-GO nanocomposite for energy and environmental applications: A green synthesis approach

Mahima Sharma, Kannikka Behl, Subhasha Nigam, Monika Joshi

PII: S0042-207X(17)31847-X
DOI: [10.1016/j.vacuum.2018.08.009](https://doi.org/10.1016/j.vacuum.2018.08.009)
Reference: VAC 8156

To appear in: *Vacuum*

Received Date: 15 December 2017

Revised Date: 2 August 2018

Accepted Date: 6 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
