An improved braking control method for the magnetically levitated TMP with a fast transient response

Kun Mao, Gang Liu

PII: S0042-207X(17)31534-8

DOI: [10.1016/j.vacuum.2017.12.002](https://doi.org/10.1016/j.vacuum.2017.12.002)

Reference: VAC 7708

To appear in: *Vacuum*

Received Date: 2 November 2017

Revised Date: 4 December 2017

Accepted Date: 5 December 2017

Please cite this article as: Mao K, Liu G, An improved braking control method for the magnetically levitated TMP with a fast transient response, *Vacuum* (2018), doi: 10.1016/j.vacuum.2017.12.002.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
