Industry 4.0 – towards fabrication of mass-personalized parts on glass by Spark Assisted Chemical Engraving (SACE)

Lucas A. Hof, Rolf Wüthrich

PII: S2213-8463(17)30084-6
DOI: <https://doi.org/10.1016/j.mfglet.2017.12.003>
Reference: MFGLET 106

To appear in: *Manufacturing Letters*

Received Date: 5 September 2017
Revised Date: 12 December 2017
Accepted Date: 16 December 2017

Please cite this article as: L.A. Hof, R. Wüthrich, Industry 4.0 – towards fabrication of mass-personalized parts on glass by Spark Assisted Chemical Engraving (SACE), *Manufacturing Letters* (2017), doi: <https://doi.org/10.1016/j.mfglet.2017.12.003>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Manufacturing Letters: Special Issue on Industry 4.0 and Smart Manufacturing

**Industry 4.0 – towards fabrication of mass-personalized parts on glass by
Spark Assisted Chemical Engraving (SACE)**
