

# Accepted Manuscript

Form-finding of deployable mesh reflectors using dynamic relaxation method

Xinyu Wang, Jianguo Cai, Ruiguo Yang, Jian Feng

PII: S0094-5765(17)31688-0

DOI: [10.1016/j.actaastro.2018.06.017](https://doi.org/10.1016/j.actaastro.2018.06.017)

Reference: AA 6935

To appear in: *Acta Astronautica*

Received Date: 17 November 2017

Accepted Date: 5 June 2018

Please cite this article as: X. Wang, J. Cai, R. Yang, J. Feng, Form-finding of deployable mesh reflectors using dynamic relaxation method, *Acta Astronautica* (2018), doi: 10.1016/j.actaastro.2018.06.017.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
