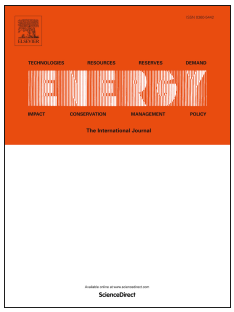
Accepted Manuscript



Comparison of viscosity prediction capabilities of regression models and artificial neural networks

Mert Gülüm, Funda Kutlu Onay, Atilla Bilgin

PII: S0360-5442(18)31427-0

DOI: 10.1016/j.energy.2018.07.130

Reference: EGY 13395

To appear in: *Energy*

Received Date: 3 February 2018

Revised Date: 11 June 2018

Accepted Date: 19 July 2018

Please cite this article as: Gülüm M, Onay FK, Bilgin A, Comparison of viscosity prediction capabilities of regression models and artificial neural networks, *Energy* (2018), doi: 10.1016/j.energy.2018.07.130.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
