

Accepted Manuscript

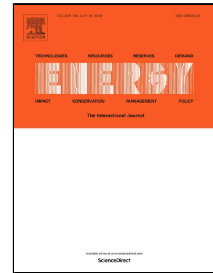

A hybrid forecasting approach applied in wind speed forecasting based on a data processing strategy and an optimized artificial intelligence algorithm

Zhongshan Yang, Jian Wang

PII: S0360-5442(18)31293-3
DOI: 10.1016/j.energy.2018.07.005
Reference: EGY 13270
To appear in: *Energy*
Received Date: 13 April 2018
Accepted Date: 03 July 2018

Please cite this article as: Zhongshan Yang, Jian Wang, A hybrid forecasting approach applied in wind speed forecasting based on a data processing strategy and an optimized artificial intelligence algorithm, *Energy* (2018), doi: 10.1016/j.energy.2018.07.005

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **A hybrid forecasting approach applied in wind speed**
2 **forecasting based on a data processing strategy and an**
3 **optimized artificial intelligence algorithm**
