

Accepted Manuscript

Experimentally validated modeling of a Turbo-Compression cooling system for power plant waste heat recovery

Shane D. Garland, Jeff Noall, Todd M. Bandhauer

PII: S0360-5442(18)30868-5
DOI: 10.1016/j.energy.2018.05.048
Reference: EGY 12881
To appear in: *Energy*
Received Date: 13 December 2017
Revised Date: 16 April 2018
Accepted Date: 07 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**EXPERIMENTALLY VALIDATED MODELING OF A TURBO-COMPRESSION
COOLING SYSTEM FOR POWER PLANT WASTE HEAT RECOVERY**
