Strategic spatial and temporal design of renewable diesel and biojet fuel supply chains: Case study of California, USA

Mohamed Leila, Joann Whalen, Jeffrey Bergthorson

PII: S0360-5442(18)30808-9

DOI: [10.1016/j.energy.2018.04.196](https://doi.org/10.1016/j.energy.2018.04.196)

Reference: EGY 12891

To appear in: *Energy*

Received Date: 1 February 2018

Revised Date: 20 April 2018

Accepted Date: 29 April 2018

Please cite this article as: Leila M, Whalen J, Bergthorson J, Strategic spatial and temporal design of renewable diesel and biojet fuel supply chains: Case study of California, USA, *Energy* (2018), doi: 10.1016/j.energy.2018.04.196.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Strategic Spatial and Temporal Design of Renewable Diesel and Biojet Fuel Supply Chains: Case Study of California, USA

Mohamed Leila^{1*}, Joann Whalen¹, Jeffrey Bergthorson²
