A study on environmental impact of insulation thickness of poultry building walls

Erdem Küçüktopcu, Bilal Cemek

PII: S0360-5442(18)30387-6
DOI: 10.1016/j.energy.2018.02.153
Reference: EGY 12453
To appear in: *Energy*
Received Date: 07 August 2017
Revised Date: 19 February 2018
Accepted Date: 27 February 2018

Please cite this article as: Erdem Küçüktopcu, Bilal Cemek, A study on environmental impact of insulation thickness of poultry building walls, *Energy* (2018), doi: 10.1016/j.energy.2018.02.153

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
