A new heuristic algorithm with the step size adjustment strategy for heat exchanger network synthesis

Pu Liu, Guomin Cui, Yuan Xiao, Jiaying Chen

PII: S0360-5442(17)31821-2
DOI: 10.1016/j.energy.2017.10.115
Reference: EGY 11759
To appear in: *Energy*
Received Date: 05 June 2017
Revised Date: 14 September 2017
Accepted Date: 24 October 2017

Please cite this article as: Pu Liu, Guomin Cui, Yuan Xiao, Jiaying Chen, A new heuristic algorithm with the step size adjustment strategy for heat exchanger network synthesis, *Energy* (2017), doi: 10.1016/j.energy.2017.10.115

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights:

1. An effective method is proposed to balance the speed and accuracy of evolution.
2. Step size adjustment strategies can improve the efficiency of heat recovery in HENS.
3. The proposed method possesses strong global search ability in optimization process.
