

Accepted Manuscript

Future aircraft concept in terms of energy efficiency and environmental factors

Eren Baharozu, Gurkan Soykan, M.Baris Ozerdem

PII: S0360-5442(17)31513-X
DOI: 10.1016/j.energy.2017.09.007
Reference: EGY 11501
To appear in: *Energy*
Received Date: 14 October 2016
Revised Date: 15 August 2017
Accepted Date: 02 September 2017

Please cite this article as: Eren Baharozu, Gurkan Soykan, M.Baris Ozerdem, Future aircraft concept in terms of energy efficiency and environmental factors, *Energy* (2017), doi: 10.1016/j.energy.2017.09.007

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Selected concepts are evaluated as to energy efficiency and environmental effects.
- Multi-criteria scoring method is used to find the best available aircraft concept.
- A future aircraft concept is suggested to reach the ACARE's purposes.
