This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

JOINT OPTIMIZATION OF POWER PLANT CYCLE PARAMETERS AND GAS TURBINE FLOW PATH PARAMETERS WITH BLADE AIRFOILS REPRESENTED BY CUBIC SPLINES

First Author: Alexander Kler, Doctor of technical sciences, Department of Thermal Power Systems

Author's Institution: Melentiev Energy Systems Institute Siberian Branch of the Russian Academy of Sciences, Irkutsk 664033, Russia

Second Author (Corresponding Author): Mr. Yuri Zakharov, Candidate of technical sciences, Department of Thermal Power Systems,

Corresponding Author's Institution: Melentiev Energy Systems Institute Siberian Branch of the Russian Academy of Sciences, Irkutsk 664033, Russia
