Adsorption of Ammonium on Clinoptilolite in Presence of Competing Cations:
Investigation on Groundwater Remediation

Marco Vocciante, Alessandra De Folly D'Auris, Antonio Finocchi, Marco Tagliabue, Michela Bellettato, Aurelio Ferrucci, Andrea P. Reverberi, Sergio Ferro

PII: S0959-6526(18)31992-9
DOI: 10.1016/j.jclepro.2018.07.025
Reference: JCLP 13479
To appear in: *Journal of Cleaner Production*
Received Date: 04 January 2018
Accepted Date: 03 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
