Environmental and economic evaluation of end-of-life reverse osmosis membranes recycling by means of chemical conversion

Eduardo Coutinho de Paula, Míriam Cristina Santos Amaral

PII: S0959-6526(18)31435-5

DOI: [10.1016/j.jclepro.2018.05.099](https://doi.org/10.1016/j.jclepro.2018.05.099)

Reference: JCLP 12956

To appear in: *Journal of Cleaner Production*

Received Date: 13 December 2017

Revised Date: 5 May 2018

Accepted Date: 12 May 2018

Please cite this article as: Coutinho de Paula E, Santos Amaral MíCristina, Environmental and economic evaluation of end-of-life reverse osmosis membranes recycling by means of chemical conversion, *Journal of Cleaner Production* (2018), doi: 10.1016/j.jclepro.2018.05.099.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Environmental and economic evaluation of end-of-life reverse osmosis membranes recycling by means of chemical conversion

Eduardo Coutinho de Paula*, Míriam Cristina Santos Amaral

Department of Sanitary and Environmental Engineering, Federal University of Minas Gerais, Av. Antônio Carlos, nº 6627, Pampulha, Belo Horizonte, Minas Gerais, Brazil.
