Synthesis of mesoporous recycled poly(ethylene terephthalate)/MWNT/carbon quantum dot nanocomposite from sustainable materials using ultrasonic waves: Application for methylene blue removal

Shadpour Mallakpour, Vajiheh Behranvand

PII: S0959-6526(18)31147-8
DOI: 10.1016/j.jclepro.2018.04.120
Reference: JCLP 12701
To appear in: *Journal of Cleaner Production*
Received Date: 19 January 2018
Revised Date: 17 March 2018
Accepted Date: 13 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
