Phase change material based cooling of photovoltaic panel: A simplified numerical model for the optimization of the phase change material layer and general economic evaluation

Müslüm Arıcı, Feyza Bilgin, Sandro Nižetić, Agis M. Papadopoulos

PII: S0959-6526(18)31076-X
DOI: 10.1016/j.jclepro.2018.04.057
Reference: JCLP 12638
To appear in: *Journal of Cleaner Production*
Received Date: 23 January 2018
Revised Date: 21 March 2018
Accepted Date: 06 April 2018

Please cite this article as: Müslüm Arıcı, Feyza Bilgin, Sandro Nižetić, Agis M. Papadopoulos, Phase change material based cooling of photovoltaic panel: A simplified numerical model for the optimization of the phase change material layer and general economic evaluation, *Journal of Cleaner Production* (2018), doi: 10.1016/j.jclepro.2018.04.057

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Phase change material based cooling of photovoltaic panel: A simplified numerical**
2 **model for the optimization of the phase change material layer and general economic**
3 **evaluation**
