This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Opportunities For Mutual Implementation of Nature Conservation and Climate Change policies: A multilevel case study based on local stakeholder perceptions

Essl I.¹, Mauerhofer V.² *Faculty of Philological and Cultural Studies, University of Vienna, Vienna, Austria*

² *Environmental Law Centre of the Organization for the Strategic Coordination of Environmental Research, Graduate School of Law, Meiji University, B730,14 Gokan,1-1 Kanda-Surugadai, Chiyoda-Ku, Tokyo 101-8301, Japan, contact: Tel & Fax in Austria +43-1-5951113, mob: +4369910165580; volker.mauerhofer@gmx.at*

Keywords: nature conservation; climate change measure; climate protection; qualitative research; urban city Vienna; stakeholder views.

Highlights:

A cities' climate change & nature conservation policies towards a sustainable lifestyle
Most interviewed stakeholders see EU climate policy and nature conservation policy separately

Limited awareness for using nature conservation measure for climate change adaptation

Limited cooperation between departments & stakeholders results in limited implementation

Limited cooperation in "learning by doing" implementation process to be improved
