Removal of polyacrylate in aqueous solution by activated sludge: Characteristics and mechanisms

Xia Zhao, Jianzhong Ma, Hongrui Ma, Dangge Gao, Yonghui Sun, Chunxiu Guo

PII: S0959-6526(17)33209-2
DOI: 10.1016/j.jclepro.2017.12.215
Reference: JCLP 11610
To appear in: *Journal of Cleaner Production*
Received Date: 03 July 2017
Revised Date: 20 December 2017
Accepted Date: 24 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Graphical abstract: N₂ adsorption and desorption isotherms of activated sludge
