This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Impact of vegetative emissions on urban ozone and biogenic secondary organic aerosol: Box model study for Berlin, Germany

Boris Bonn (a, b*), Erika von Schneidemesser (a), Tim Butler (a), Galina Churkina (c), Christian Ehlers (e, f), Rüdiger Grote (a, d), Dieter Klemp (e), Rainer Nothard (g), Klaus Schäfer (d), Albrecht von Stülpnagel (g), Andreas Kerschbaumer (g), Rasoul Yousefpour (h), Christos Fountoukis (i) and Mark G. Lawrence (a)

(a) Institute for Advanced Sustainability Studies (IASS), Berliner Straße 130, D-14467 Potsdam, Germany.

(b) now at: Chair of Tree Physiology, Albert Ludwig University, Georges-Koehler-Allee 053, D-79110 Freiburg i.Br., Germany.

(c) Geography Department, Humboldt University, Unter den Linden 6, D-10099 Berlin.

(d) Karlsruhe Institute of Technologies (KIT), Institute of Meteorology and Climate Research, Department of Atmospheric Environmental Research (IMK-IFU), Division of Regional Climate Systems, Campus Alpin, Kreuzeckbahnstr. 19, D-82467 Garmisch-Partenkirchen, Germany.

(e) IEK-8, Research Centre Jülich, D-52425 Jülich, Germany.

(f) now at: Landesamt für Natur, Umwelt und Verbraucherschutz, Abtl. 4, Luftqualität, Geräusche, Erschütterungen, Strahlenschutz, Wallneyer Straße 6, D-45133 Essen, Germany.

(g) Senate Department for Urban Development and the Environment, Brückenstraße 6, D-10179 Berlin, Germany

(h) Chair of Forestry Economics and Forest Planning, Albert Ludwig University, Tennenbacher Str. 4, D-79106 Freiburg i. Br., Germany

(i) Qatar Environment and Energy Research Institute (QEERI), Hamad Bin Khalifa University, Qatar Foundation, Doha, Qatar.

* Corresponding author: Boris Bonn, Boris.Bonn@ctp.uni-freiburg.de,

Present address: Chair of Tree Physiology, Institute for Forest Sciences, Albert Ludwig University, Georges-Koehler-Allee 053, D-79110 Freiburg i.Br., Germany.

Keywords: urban vegetation, air pollution, ozone, aerosol particles, box model
