This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

### Highlights

Title: Applying Social Life Cycle Assessment in the Thai Sugar Industry: Challenges from the field

- S-LCA was tested vis-à-vis its applicability for the Thai sugar industry sector.
- Social issues to improve are fair wages, health & safety, water and land rights.
- Reference flow should be selected to be comparable to other similar products.
- The S-LCA of Thai sugar industry should be conducted at provincial level scope.
