Critical analysis and valorization potential of battery industry sludge: Speciation, risk assessment and metal recovery

Vihangraj V. Kulkarni, Animes Kumar Golder, Pranab Kumar Ghosh

PII: S0959-6526(17)32357-0

DOI: [10.1016/j.jclepro.2017.10.064](https://doi.org/10.1016/j.jclepro.2017.10.064)

Reference: JCLP 10856

To appear in: *Journal of Cleaner Production*

Received Date: 4 July 2017

Revised Date: 4 September 2017

Accepted Date: 7 October 2017

Please cite this article as: Kulkarni VV, Golder AK, Ghosh PK, Critical analysis and valorization potential of battery industry sludge: Speciation, risk assessment and metal recovery, *Journal of Cleaner Production* (2017), doi: 10.1016/j.jclepro.2017.10.064.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Critical analysis and valorization potential of battery industry

sludge: speciation, risk assessment and metal recovery
