This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title page (JCLP 10703)

Title:

Novel and green metallurgical technique of comprehensive utilization of refractory limonite ores

Authors:

Fangfang Wu ^{1,2}, Zhanfang Cao ^{1,2}, Shuai Wang ^{1,2*}, Hong Zhong ^{1,2*}

Author addresses:

¹ College of Chemistry and Chemical Engineering, Central South University, Changsha 410083, China

² Hunan Provincial Key Laboratory of Efficient and Clean Utilization of Manganese Resources, Central South University, Changsha 410083, China

Corresponding authors:

Shuai Wang, associate professor, Tel: +86-731-88879616, E-mail: wangshuai@csu.edu.cn;

Hong Zhong, professor, Tel: +86-731-88836236, E-mail: zhongh@csu.edu.cn
