Sustainable eco-composites obtained from waste derived biochar: a consideration in performance properties, production costs, and environmental impact

Oisik Das, Debes Bhattacharyya, Ajit K. Sarmah

PII: S0959-6526(16)30364-X

DOI: [10.1016/j.jclepro.2016.04.088](https://doi.org/10.1016/j.jclepro.2016.04.088)

Reference: JCLP 7112

To appear in: *Journal of Cleaner Production*

Received Date: 21 February 2016

Revised Date: 25 March 2016

Accepted Date: 20 April 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Sustainable eco-composites obtained from waste derived biochar: a consideration in performance properties, production costs, and environmental impact
