Biomarker signatures of Upper Cretaceous Latrobe Group hydrocarbon source rocks, Gippsland Basin, Australia: Distribution and palaeoenvironment significance of aliphatic hydrocarbons

Lian Jiang, Simon C. George

PII: S0166-5162(18)30045-4
DOI: doi:[10.1016/j.coal.2018.06.025](https://doi.org/10.1016/j.coal.2018.06.025)
Reference: COGEL 3047
To appear in: *International Journal of Coal Geology*
Received date: 18 January 2018
Revised date: 25 June 2018
Accepted date: 30 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Biomarker signatures of Upper Cretaceous Latrobe Group hydrocarbon source rocks,
Gippsland Basin, Australia: Distribution and palaeoenvironment significance of
aliphatic hydrocarbons**
