Evaluation of the near fracture face formation damage caused by the spontaneously imbibed fracturing fluid in unconventional gas reservoirs

Aymen Al-Ameri, Talal Gamadi, Ion Ispas

PII: S0920-4105(18)30596-5

DOI: [10.1016/j.petrol.2018.07.021](https://doi.org/10.1016/j.petrol.2018.07.021)

Reference: PETROL 5118

To appear in: *Journal of Petroleum Science and Engineering*

Received Date: 20 December 2017

Revised Date: 15 May 2018

Accepted Date: 7 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Evaluation of the Near Fracture Face Formation Damage Caused by the Spontaneously Imbibed Fracturing Fluid in Unconventional Gas Reservoirs

Aymen Al-Ameri¹, Talal Gamadi¹, Ion Ispas¹
