The stress state around an elliptical borehole in anisotropy medium

Dexuan Qi, Lijuan Li, Yongshu Jiao

PII: S0920-4105(18)30197-9

DOI: 10.1016/j.petrol.2018.03.013

Reference: PETROL 4754

To appear in: *Journal of Petroleum Science and Engineering*

Received Date: 4 September 2017

Revised Date: 18 December 2017

Accepted Date: 2 March 2018

Please cite this article as: Qi, D., Li, L., Jiao, Y., The stress state around an elliptical borehole in anisotropy medium, *Journal of Petroleum Science and Engineering* (2018), doi: 10.1016/j.petrol.2018.03.013.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
