Simulation of flow behaviour through fractured unconventional gas reservoirs considering the formation damage caused by water-based fracturing fluids

C.P. Zhang, P.G. Ranjith, M.S.A. Perera, X. Li, J. Zhao

PII: S1875-5100(18)30294-4

DOI: [10.1016/j.jngse.2018.06.039](https://doi.org/10.1016/j.jngse.2018.06.039)

Reference: JNGSE 2638

To appear in: *Journal of Natural Gas Science and Engineering*

Received Date: 4 January 2018

Revised Date: 13 June 2018

Accepted Date: 25 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Cover Page**

2

3 **Manuscript Title:**

4 Simulation of flow behaviour through fractured unconventional gas reservoirs considering the
5 formation damage caused by water-based fracturing fluids

6

7 **Authors' names:**

8 C.P. Zhang¹, P.G. Ranjith^{1*}, M.S.A. Perera^{1,2}, X. Li³, J. Zhao¹

9 ¹Deep Earth Energy Laboratory, Department of Civil Engineering, Monash University,
10 Building 60, Melbourne, Victoria, 3800, Australia.

11 ²Department of Infrastructure Engineering, The University of Melbourne, Building 176,
12 Melbourne, Victoria, 3010, Australia.

13 ³ Key Laboratory of Shale Gas and Geoengineering, Institute of Geology and Geophysics,
14 Chinese Academy of Sciences, Beijing 100029, China

15 ³Institutions of Earth Science, Chinese Academy of Sciences, Beijing 100029, China

16 ³College of Earth Science, University of Chinese Academy of Sciences, Beijing 100049,
17 China

18 **Corresponding author:**

19 Prof. Ranjith PG*

20 Deep Earth Energy Laboratory, Monash University, Building 60,

21 Melbourne, Victoria, 3800, Australia.
