Numerical investigation of mineralogical composition effect on strength and micro-cracking behavior of crystalline rocks

Louis Ngai Yuen Wong, Jun Peng, Cee Ing Teh

PII: S1875-5100(18)30119-7

DOI: [10.1016/j.jngse.2018.03.004](https://doi.org/10.1016/j.jngse.2018.03.004)

Reference: JNGSE 2495

To appear in: *Journal of Natural Gas Science and Engineering*

Received Date: 1 November 2017

Revised Date: 5 February 2018

Accepted Date: 7 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Numerical investigation of mineralogical composition effect on strength and micro-cracking behavior of crystalline rocks

Louis Ngai Yuen Wong¹, Jun Peng^{2,3}, Cee Ing Teh³
