Depressurization and electrical heating of methane hydrate sediment for gas production: Laboratory-scale experiments

Hideki Minagawa, Takuma Ito, Sho Kimura, Hiroaki Kaneko, Shohei Noda, Norio Tenma

PII: S1875-5100(17)30450-X

DOI: [10.1016/j.jngse.2017.10.024](https://doi.org/10.1016/j.jngse.2017.10.024)

Reference: JNGSE 2361

To appear in: *Journal of Natural Gas Science and Engineering*

Received Date: 10 May 2017

Revised Date: 26 September 2017

Accepted Date: 19 October 2017

Please cite this article as: Minagawa, H., Ito, T., Kimura, S., Kaneko, H., Noda, S., Tenma, N., Depressurization and electrical heating of methane hydrate sediment for gas production: Laboratory-scale experiments, *Journal of Natural Gas Science & Engineering* (2017), doi: 10.1016/j.jngse.2017.10.024.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

29

30 Highlights

- 31 • Electrical heating of methane hydrate sediment was examined.
32 • Depressurization and additional electric heating enhanced gas production.
33 • Electrical heating increased the temperature of methane hydrate sediment.

MH: Methane hydrate

EEOR: Electric/electromagnetic-enhanced oil recovery
