## **Accepted Manuscript**

Stability and mobility of foam generated by gas-solvent/surfactant mixtures under reservoir conditions

Chao Wang, Huazhou Andy Li

PII: \$1875-5100(16)30447-4

DOI: 10.1016/j.jngse.2016.06.064

Reference: JNGSE 1611

To appear in: Journal of Natural Gas Science and Engineering

Received Date: 14 March 2016
Revised Date: 25 June 2016
Accepted Date: 27 June 2016

Please cite this article as: Wang, C., Li, H.A., Stability and mobility of foam generated by gas-solvent/surfactant mixtures under reservoir conditions, *Journal of Natural Gas Science & Engineering* (2016), doi: 10.1016/i.ingse.2016.06.064.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

#### ACCEPTED MANUSCRIPT

### Stability and Mobility of Foam Generated by Gas-Solvent/Surfactant Mixtures under Reservoir Conditions
