Indicative assessment of design efficiency of mining roadways

Zbigniew Niedbalski, Tadeusz Majcherczyk

PII: S2300-3960(17)30143-X

DOI: [10.1016/j.jsm.2018.04.003](https://doi.org/10.1016/j.jsm.2018.04.003)

Reference: JSM 88

To appear in: *Journal of Sustainable Mining*

Received Date: 16 December 2017

Revised Date: 8 February 2018

Accepted Date: 12 April 2018

Please cite this article as: Niedbalski Z. & Majcherczyk T., Indicative assessment of design efficiency of mining roadways, *Journal of Sustainable Mining* (2018), doi: 10.1016/j.jsm.2018.04.003.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Indicative assessment of design efficiency of mining roadways

Wskaźnikowa ocena skuteczności projektowania obudowy wyrobisk korytarzowych
