Investigation of diamond wheel topography in elliptical ultrasonic assisted grinding (EUAG) of monocrystal sapphire using fractal analysis method

Qiuyan Wang, Wenxiang Zhao, Zhiqiang Liang, Xibin Wang, Tianfeng Zhou, Yongbo Wu, Li Jiao

PII: S0041-624X(17)30857-0

DOI: <https://doi.org/10.1016/j.ultras.2017.10.012>

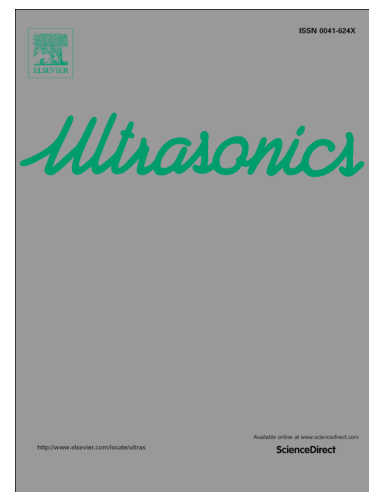

Reference: ULTRAS 5635

To appear in: *Ultrasonics*

Received Date: 15 April 2016

Revised Date: 23 March 2017

Accepted Date: 12 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Investigation of diamond wheel topography in elliptical ultrasonic assisted grinding (EUAG) of monocrystal sapphire using fractal analysis method
