This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highllights

- We have carefully considered and accepted all the suggestions and improvements proposed by the reviewers.
- The “we” expressions have been removed where they were not necessary and we have also tried to avoid references to well known astronomical facts.
- We have made the necessary changes to adapt the terminology to the IAU adopted rules (April 30th, 2017)
- Regarding the bibliography, the missing reference has been included as well as the other contributions suggested by the reviewer.
- “Line 433 – is the Jenniskens (1994) rate 0.47 or 0.047 - please check” We checked this value. It is 0.0047 º/yr
- Line 447 – is Koryo meant to mean Korean? Answer: Koryo refers to the Koryo dynasty. An explanation has been included in the text.”
