An improved radiative transfer model for estimating mineral abundance of immature and mature lunar soils

Dawei Liu, Lin Li, Ying Sun

PII: S0019-1035(15)00065-2

DOI: <http://dx.doi.org/10.1016/j.icarus.2015.02.013>

Reference: YICAR 11465

To appear in: *Icarus*

Received Date: 18 October 2014

Revised Date: 30 January 2015

Accepted Date: 15 February 2015

Please cite this article as: Liu, D., Li, L., Sun, Y., An improved radiative transfer model for estimating mineral abundance of immature and mature lunar soils, *Icarus* (2015), doi: <http://dx.doi.org/10.1016/j.icarus.2015.02.013>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

An improved radiative transfer model for estimating mineral abundance of immature and mature lunar soils
