Relationship between Regolith Particle Size and Porosity on Small Bodies

Masato Kiuchi, Akiko M. Nakamura

PII: S0019-1035(14)00282-6

DOI: <http://dx.doi.org/10.1016/j.icarus.2014.05.029>

Reference: YICAR 11111

To appear in: *Icarus*

Received Date: 27 January 2014

Revised Date: 11 April 2014

Accepted Date: 21 May 2014

Please cite this article as: Kiuchi, M., Nakamura, A.M., Relationship between Regolith Particle Size and Porosity on Small Bodies, *Icarus* (2014), doi: <http://dx.doi.org/10.1016/j.icarus.2014.05.029>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
