

Accepted Manuscript

On multi switching compound synchronization of non identical chaotic systems

Nitish Prajapati, Ayub Khan, Dinesh Khattar

PII: S0577-9073(18)30440-4
DOI: [10.1016/j.cjph.2018.06.015](https://doi.org/10.1016/j.cjph.2018.06.015)
Reference: CJPH 562

To appear in: *Chinese Journal of Physics*

Received date: 23 March 2018
Revised date: 8 May 2018
Accepted date: 8 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Multi switching synchronization involving non identical chaotic systems is proposed.
- Compound synchronization study is extended to involve non identical systems.
- Compound synchronization study is combined with multi switching studies.
- Several existing synchronization schemes are obtained as special cases of this scheme.
- The result is validated by performing numerical simulations on MATLAB.
