Chaotic Analysis and Combination-Combination Synchronization of a Novel Hyperchaotic System without any Equilibria

Ayub Khan, Shikha Singh

PII: S0577-9073(17)30783-9
DOI: [10.1016/j.cjph.2017.12.023](https://doi.org/10.1016/j.cjph.2017.12.023)
Reference: CJPH 426

To appear in: *Chinese Journal of Physics*

Received date: 24 June 2017
Revised date: 19 December 2017
Accepted date: 23 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- A novel hyperchaotic system with no equilibrium point is constructed.
- It is observed that as the parameter values varies the system displays different behavior.
- Various properties of novel hyperchaotic system are investigated.
- Using this novel system combination-combination synchronization is performed.
