Shape and Size dependent thermophysical properties of nanocrystals

M. Goyal , B.R.K. Gupta

PII: S0577-9073(17)30708-6
DOI: [10.1016/j.cjph.2017.12.014](https://doi.org/10.1016/j.cjph.2017.12.014)
Reference: CJPH 416

To appear in: *Chinese Journal of Physics*

Received date: 10 June 2017
Revised date: 19 December 2017
Accepted date: 20 December 2017

Please cite this article as: M. Goyal , B.R.K. Gupta , Shape and Size dependent thermophysical properties of nanocrystals, *Chinese Journal of Physics* (2017), doi: [10.1016/j.cjph.2017.12.014](https://doi.org/10.1016/j.cjph.2017.12.014)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights:

- The thermo-physical properties of nanomaterials are studied theoretically.
- The physical properties of nanomaterials are studied with different size and shape.
- Good consistency is achieved between the present results and the results reported earlier.
