Accepted Manuscript

Removing Unwanted Background Phase with a Reference Phantom for Applications in Susceptibility Quantification

He Xie, Yu-Chung Norman Cheng, Saifeng Liu, Paul Kokeny

PII:	S0730-725X(18)30135-8
DOI:	doi:10.1016/j.mri.2018.07.009
Reference:	MRI 9004
To appear in:	Magnetic Resonance Imaging
Received date:	13 May 2018
Accepted date:	20 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
