

## Accepted Manuscript

Comment on the paper “Thermoluminescence glow-curve deconvolution functions for mixed order of kinetics and continuous trap distribution by G. Kitis, J.M. Gomez-Ros, Nuclear Instruments and Methods in Physics Research A 440, 2000, pp 224-231”

Nikolaos A. Kazakis

PII: S0168-9002(17)31032-X  
DOI: <https://doi.org/10.1016/j.nima.2017.09.062>  
Reference: NIMA 60141

To appear in: *Nuclear Inst. and Methods in Physics Research, A*

Received date : 6 September 2017  
Revised date : 18 September 2017  
Accepted date : 27 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
