

## CONTENTS

|                              |      |
|------------------------------|------|
| Preface                      | v    |
| Committee members & sponsors | vi   |
| Group photo                  | vii  |
| Local organizers photo       | viii |

### Part 1. Opening addresses

|   |   |
|---|---|
| Welcome and acknowledgement by the chairman of QCD 15<br>S. Narison | 1 |
|---|---|

### Part 2. QCD at LHC

*Chairmen: M. Loewe, S. Narison*

|   |    |
|---|----|
| ATLAS Run-2 status and performance<br>F. Pastore on behalf of the ATLAS Collaboration                   | 3  |
| Jet and isolated photon production in pp collisions with ATLAS<br>G.F. Tartarelli                       | *  |
| Jet production and $\alpha_s$ measurement at CMS<br>G. Flouris on behalf of the CMS Collaboration       | 8  |
| ATLAS measurements of vector boson production<br>C. Chavez Barajas                                      | *  |
| CMS forward and small-x QCD physics results<br>A. Grebenyuk on behalf of the CMS Collaboration          | 13 |
| Recent results of soft QCD with the ATLAS experiment<br>S. Monzani on behalf of the ATLAS Collaboration | 18 |
| New insights at very high energy<br>L. Stodolsky  | *  |

### Part 3. QCD at some other colliders

*Chairmen: U. Gastaldi, L. Stodolsky*

|   |    |
|---|----|
| Towards parton distributions with fitted charm<br>P. Groth-Merrild and L. Rottoli on behalf of the NNPDF Collaboration                | 23 |
| Intrinsic charm and $\gamma + c$ -jet production at the LHC and Tevatron<br>A. Vafaei, A. Khorramian, S. Rostami and A. Aleedaneshvar | 27 |
| Review of diffraction at HERA<br>K. Cerny   | *  |
| Proton structure and $\alpha_s$ from HERA<br>A. Gizhko  | *  |

\* Manuscript not received.

|  |    |
|--|----|
| The energy dependence of leading neutron spectra<br>F. Carvalho, V.P. Gonçalves, F.S. Navarra and D. Spiering                        | 32 |
| GPd study programme of COMPASS at CERN<br>O. Kouznetsov on behalf of the COMPASS Collaboration                                       | 36 |
| Results on longitudinal spin physics at COMPASS<br>M. Wilfert on behalf of the COMPASS Collaboration                                 | 41 |
| High energy nuclear collisions from QCD at small Bjorken $x$<br>J. Jalilian-Marian   | 46 |
| Acceptance studies of an additional Lambda Disk Detector for the PANDA experiment<br>A. Kumar and A. Roy for the PANDA Collaboration | 50 |

#### Part 4. Kaon decays, light hadrons

*Chairmen: A. Di Giacomo, A. Nesterenko, J.M. Richard*

|   |    |
|---|----|
| Prospects for $K^+ \rightarrow \pi^+ \nu \bar{\nu}$ observation at CERN in NA62<br>G. Khoriauli on behalf of the NA62 Collaboration   | 55 |
| Latest results on light hadron spectroscopy at BESIII<br>Z. Zhang   | *  |
| Measurement of hadron pair production cross sections at BESIII<br>H. Hu on behalf of the BESIII Collaboration   | 62 |
| Low-energy hadronic cross section measurements at BaBar<br>P. Lukin   | *  |
| Progress toward a direct experimental detection of $\gamma\gamma$ interactions<br>A. Ejlli, F. Della Valle, U. Gastaldi, G. Messineo, E. Milotti, R. Pengo, G. Ruoso and G. Zavattini | 67 |
| $\eta - \eta'$ mixing angle from vector meson radiative decays<br>T.N. Pham   | 73 |
| A method to prove the minimality of the order $p^6$ chiral Lagrangian<br>P. Ruiz-Femenía and M. Zahiri-Abyaneh  | 78 |
| Green functions of currents in the odd-intrinsic parity sector of QCD<br>T. Kadavý, K. Kampf and J. Novotný   | 83 |
| The relation between the perturbative QCD scale $\Lambda_s$ and hadronic masses from light-front holography<br>A. Deur, S.J. Brodsky and G.F. de Teramond                             | 88 |
| On the role of dynamical quark mass generation in chiral symmetry breaking in QCD<br>H. Sazdjian  | 93 |
| Quark condensate from renormalization group optimized spectral density<br>J.-L. Kneur and A. Neveu  | 98 |
| Proton neutron mass-difference from lattice<br>C. Hoelbling   | *  |

#### Part 5. Tau decays

*Chairman: S. Narison*

|  |     |
|--|-----|
| QCD studies in tau decays<br>M. Jamin  | *   |
| $\alpha_s$ from the updated ALEPH data for hadronic $\tau$ decays<br>D. Boito, M. Golterman, K. Maltman, J. Osborne and S. Peris | 103 |
