

Accepted Manuscript

A method for automatic selection of parameters in NTCP modelling

Damianos Christophides, Ane L. Appelt, Arief Gusnanto, John Lilley, David Sebag-Montefiore

PII: S0360-3016(18)30451-6

DOI: [10.1016/j.ijrobp.2018.02.152](https://doi.org/10.1016/j.ijrobp.2018.02.152)

Reference: ROB 24821

To appear in: *International Journal of Radiation Oncology • Biology • Physics*

Received Date: 3 October 2017

Revised Date: 8 January 2018

Accepted Date: 26 February 2018

Please cite this article as: Christophides D, Appelt AL, Gusnanto A, Lilley J, Sebag-Montefiore D, A method for automatic selection of parameters in NTCP modelling, *International Journal of Radiation Oncology • Biology • Physics* (2018), doi: 10.1016/j.ijrobp.2018.02.152.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title:

A method for automatic selection of parameters in NTCP modelling

Authors:

Damianos Christophides^{1, 2}, Ane L. Appelt^{1,2,3}, Arief Gusnanto⁴, John Lilley¹ and David Sebag-Montefiore^{1,2}

1. Leeds Cancer Centre, St James's University Hospital, Leeds, UK

2. Leeds Institute of Cancer and Pathology, University of Leeds, Leeds, United Kingdom

3. Danish Colorectal Cancer Center South, Vejle Hospital, Vejle, Denmark

4. Department of Statistics, University of Leeds, United Kingdom

Running title:

Automatic NTCP modelling

Corresponding author:

Damianos Christophides

Radiotherapy Physics, Level 1, Bexley Wing, St James's University Hospital, Beckett Street, Leeds LS9 7TF, United Kingdom, email: D.Christophides@leeds.ac.uk, Tel: +44 (0) 113 2067553

Authors responsible for statistical analyses:

Radiotherapy Physics, Level 1, Bexley Wing, St James's University Hospital, Beckett Street, Leeds LS9 7TF, United Kingdom, email: D.Christophides@leeds.ac.uk, Tel: +44 (0) 113 2067553

Arief Gusnanto

Department of Statistics, School of Mathematics, University of Leeds, Leeds LS2 9JT, email: A.Gusnanto@leeds.ac.uk, Tel: +44 (0) 113 3435135

Conflict of interest statement

The authors have no relevant conflicts of interest to disclose.

Acknowledgments

DC was funded by the Cancer Research UK Leeds Centre and AA is supported by Yorkshire Cancer Research Academic Fellowship funding (grant L389AA). The support from Prof. Anders Jakobsen, Vejle Hospital, Denmark, and Prof. Ivan Vogelius, Rigshospitalet, Denmark, for the original data collection and analysis is gratefully acknowledged.

No funders had any involvement in the study design, in the collection, analysis and interpretation of data; in the writing of the manuscript; or in the decision to submit the manuscript for publication.
