Radiation Necrosis and White Matter Lesions in Pediatric Patients with Brain Tumors treated with Pencil Beam Scanning Proton Therapy

Beat Bojaxhiu, MD, Frank Ahlhelm, MD, Marc Walser, MD, Lorenzo Placidi, MSc, Ulrike Kliebsch, PhD, Lorentzos Mikroutsikos, MSc, Petra Morach, MSc, Alessandra Bolsi, PhD, Tony Lomax, PhD, Alessia Pica, MD, Damien C. Weber, MD

PII: S0360-3016(17)34163-9

DOI: [10.1016/j.ijrobp.2017.11.037](https://doi.org/10.1016/j.ijrobp.2017.11.037)

Reference: ROB 24621

To appear in: *International Journal of Radiation Oncology • Biology • Physics*

Received Date: 16 August 2017

Revised Date: 11 October 2017

Accepted Date: 24 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Conflicts of Interest Notification: The author & co-authors have no potential Conflict of Interest

Word counting (Abstract): 3497 (298)

Tables (Figures): 6 (2)

Supplementary Tables: 1

Keywords: brain tumors, proton therapy, pencil beam scanning, Children, neuro-oncology, radiation necrosis

Running Title: Brain RN in Children treated with PBS PT

Acknowledgments:

We thank Anna Wiener Wellauer (XXXX), April Siegwolf (XXXX), Beate Schulz (XXXX) for providing data management, Dr. Beate Timmermann (Essen University Hospital), Dr. Ralf Schneider and Dr. Gudrun Goitein for treating these patients and for providing data entry, and Prof. Dr. D. M. Aebersold (Bern University Hospital) for financially supporting this work.
