

# Accepted Manuscript

Pitfalls in prediction modelling for normal tissue toxicity in radiation therapy: an illustration with the ISE and MARIE cohorts

Chamberlain Mbah, MSc, Hubert Thierens, PhD, Olivier Thas, PhD, Jan De Neve, PhD, Jenny Chang-Claude, PhD, Petra Seibold, PhD, Akke Botma, PhD, Catharine West, PhD, Kim De Ruyck, PhD

PII: S0360-3016(16)30001-3

DOI: [10.1016/j.ijrobp.2016.03.034](https://doi.org/10.1016/j.ijrobp.2016.03.034)

Reference: ROB 23525

To appear in: *International Journal of Radiation Oncology • Biology • Physics*

Received Date: 27 August 2015

Revised Date: 7 February 2016

Accepted Date: 24 March 2016

Please cite this article as: Mbah C, Thierens H, Thas O, De Neve J, Chang-Claude J, Seibold P, Botma A, West C, De Ruyck K, Pitfalls in prediction modelling for normal tissue toxicity in radiation therapy: an illustration with the ISE and MARIE cohorts, *International Journal of Radiation Oncology • Biology • Physics* (2016), doi: 10.1016/j.ijrobp.2016.03.034.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## RESEARCH

Pitfalls in prediction modelling for normal tissue toxicity in radiation  
therapy: an  
illustration with the ISE and MARIE cohorts
