### Author's Accepted Manuscript

Post-sterilization radiation dosimetry of commercial pharmaceuticals using optically stimulated luminescence

Nikolaos A. Kazakis, Nestor C. Tsirliganis, George Kitis

PII: S0969-806X(17)30714-4

DOI: https://doi.org/10.1016/j.radphyschem.2018.04.034

Reference: RPC7841

To appear in: Radiation Physics and Chemistry

Received date: 19 July 2017 Revised date: 9 March 2018 Accepted date: 19 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

### **ACCEPTED MANUSCRIPT**

# Post-sterilization radiation dosimetry of commercial pharmaceuticals using optically stimulated luminescence
