

Author's Accepted Manuscript

Humidity and temperature effects on mechanical properties and conductivity of graft-type polymer electrolyte membrane

Tran Duy Tap, Do Duy Khiem, La Ly Nguyen, Nguyen Quoc Hien, Le Quang Luan, Phan Bach Thang, Shin-ichi Sawada, Shin Hasegawa, Yasunari Maekawa

PII: S0969-806X(17)30448-6
DOI: <https://doi.org/10.1016/j.radphyschem.2018.06.033>
Reference: RPC7908

To appear in: *Radiation Physics and Chemistry*

Received date: 20 April 2017
Revised date: 24 May 2018
Accepted date: 13 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Humidity and temperature effects on mechanical properties and conductivity of graft-type polymer electrolyte membrane

Tran Duy Tap^{a,}, Do Duy Khiem^{a,b}, La Ly Nguyen^{a,b}, Nguyen Quoc Hien^c, Le Quang Luan^d,*

Phan Bach Thang^{a,d}, Shin-ichi Sawada^e, Shin Hasegawa^e, Yasunari Maekawa^e
